The original version of this Preface article unfortunately contained an incorrect data “Following the conference, authors of selected presentations were invited to submit full journal papers to this special issue of AMAI. After a rigorous refereeing process, 14 papers were accepted to be published.” should be “Following the conference, authors of selected presentations were invited to submit full journal papers to this special issue of AMAI. After a rigorous refereeing process, 11 papers were accepted to be published.” This is as per Editor in Chief’s advise.
