

## CHAPTER-5

### AUTHOR'S INFORMATION

**Debprasad Dutta**, MSc, MRSB, CommScholar

He is pursuing Commonwealth Split-site PhD in Human Genetics with dual affiliation at National Institute of Mental Health & Neurosciences (NIMHANS), India and Institute of Infection & Global Health (IGH), University of Liverpool, UK. He is also a licensed clinical researcher of National Health Service (NHS) at The Walton Centre, UK. Genetics that shapes and shuffles the nervous system and immune system drives his research. His vision is to unwrap the science of artful whispering among gene, nerve, and defence department of our body. He loves to sneak certain time from his routine to compose poetry sporadically.
